

# AUSTRALIAN ASSOCIATION FOR PSYCHOLOGICAL TYPE

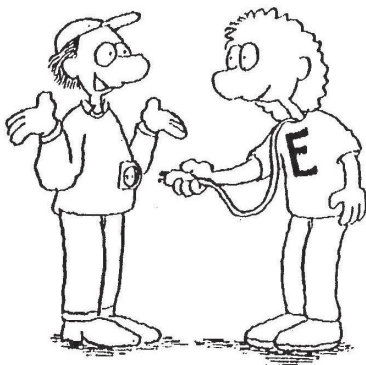

## AusAPT QLD 2010 Type Instruments Series

### The Jungian Type Index® (JTI)

... know what's out there!

Premiere presentation  
in Australia!

**Thursday 13 May 2010**  
**7.00pm - 9.00pm**

Don't miss out on the premiere presentation of the *Jungian Type Index® (JTI)* in Australia exclusively for the Australian Association for Psychological Type.

Come and learn more about its development, its application and, gain further understanding of how you can use Type in your own environment.

Based on C.G. Jung's type theory, producing the same 16 types as the MBTI®, the JTI has gained great popularity with type practitioners all over Europe.

**Register now** by emailing:  
[registerQLD@ausapt.org.au](mailto:registerQLD@ausapt.org.au)

AusAPT members: \$20  
Non-members \$35

\*Add \$10 if paid after 5th May\*

**Mike Stuer**  
**Msc Psychology**

Mike Stuer is a social psychologist, type practitioner and trainer. He is accredited for the Jungian Type Index® and is adept in similar instruments like the Myers Briggs Type Indicator®. During his study he focused on people's influence over each other's thoughts, feelings and behaviour.

Dedicating his master's thesis to the recently developed Jungian Type Index® (JTI) he established the scientific basis for the instrument's validity and reliability and can provide expert knowledge on other instruments' scientific value.

Mike also works as trainer providing engaging workshops on communication, conflict and teamwork. He incorporates the findings of his extensive research on type theory and applies recent adult learning principles to his training. His facilitation style is refreshingly informal without compromising the quality of the result.

If you would like to get in contact with Mike you can email him at [m.stuer@hotmail.com](mailto:m.stuer@hotmail.com) or give him a call at 0405 787 498.
