# Salon

Discussion Evening by the fire with a glass of red

AusAPT Vic-Tas members and friends are invited to our first of three Salons at **epicentre** this year.

These evenings are designed to be fun **and** involve some serious learning at the same time. Meredith and Yoland explain the concept as “a little like shared typewatching. A little like gossip. A little like serious socio-political analysis. And a little like whatever we make of them!”

A small number of materials (e.g. newspaper cuttings, cultural artefacts, etc.) and a prepared list of potential topics arising from them will be available to assist the otherwise spontaneous conversation with a little structure and grounding for those who would appreciate this. We do want to cater to all type preferences!
